

Rakemont[®]

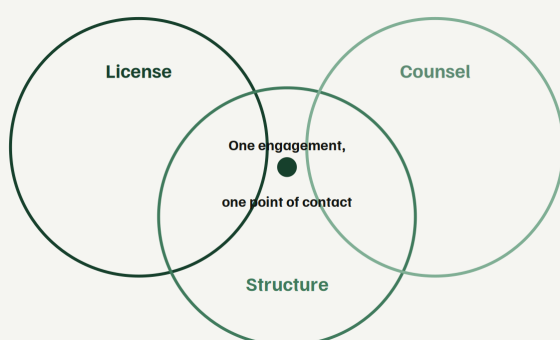

**Licensing and legal
infrastructure for
crypto gaming.**

Gaming licenses, offshore company formation, and legal counseling for
crypto casinos and crypto exchanges.

The regulatory desk behind crypto operators.

Rakemont builds the legal and corporate infrastructure that crypto casinos and exchanges run on: the license, the holding and operating companies behind it, and the policies regulators and payment partners expect to see. Everything runs as one engagement, with a fixed written quote issued before work begins.

LICENSE, STRUCTURE, AND COUNSEL DESIGNED TOGETHER

02.1 Gaming licensing

License applications across Anjouan, Vanuatu, Tobique, and Curacao. Incorporation, documentation, submission, and regulator correspondence under one fixed quote.

02.2 Offshore company formation

Holding and operating structures across seven jurisdictions, with substance arrangements, corporate maintenance, and banking introductions.

02.3 Legal counseling

Regulatory guidance, market access, license conditions, contracts, and counterparty agreements, from a desk that works in this niche daily.

02.4 Compliance & policy drafting

AML programs, responsible gaming policies, KYC procedures, and player terms drafted to license conditions and PSP onboarding requirements.

TYPICAL ANJOUAN ENGAGEMENT, COMPLETE FILE

Every engagement includes:

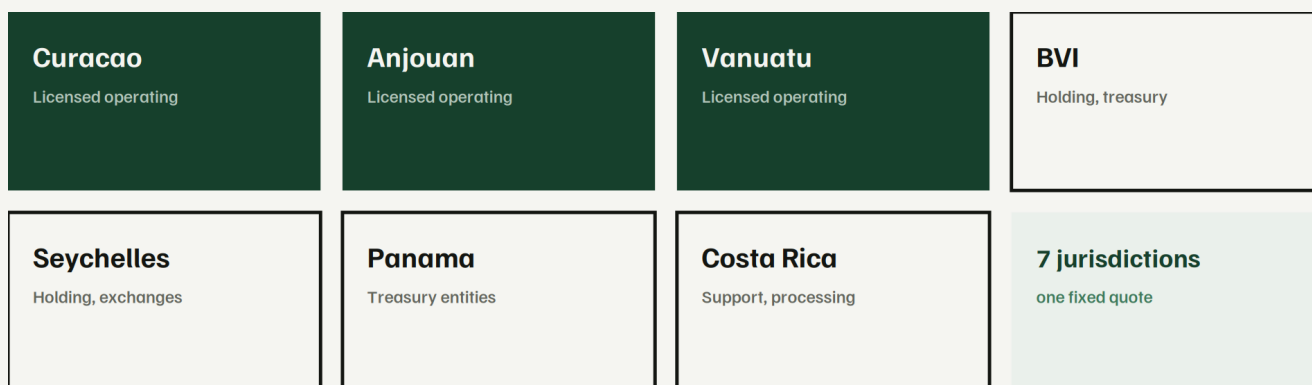

Fixed written quote with third-party fees itemized - AML, RG, and player terms drafted to conditions - Banking and PSP introductions post-issuance - One principal as point of contact

Structure follows the license.

A holding company in BVI or Seychelles owns the licensed operating entity in the license jurisdiction, with support entities in Costa Rica where the operation needs them. Rakemont forms the full stack: incorporation, substance and director arrangements, corporate maintenance, and banking introductions once the structure exists to onboard.

REFERENCE STACK, DESIGNED PER LICENSE CONDITIONS

Regulatory guidance

License conditions, market access, advertising restrictions.

Contracts & documents

Platform, supplier, affiliate agreements, player terms, privacy policies.

Exchange & disputes

Exchange structuring, listing and custody terms, demand letters, PSP disputes.

From first question to issued license.

05.1	Scoping	Operation, markets, and budget matched to the right license and structure. Fixed written quote follows.
05.2	Formation	Companies incorporated, substance arranged, corporate documentation prepared.
05.3	Application	License file compiled, pre-screened, and submitted, regulator correspondence handled throughout.
05.4	Operation	License issued with compliance calendar, policies in place, and ongoing counsel as the business runs.

License, structure, or counsel?

Describe the operation and what it needs. The quote that comes back is fixed, in writing, with third-party fees itemized. An NDA precedes anything of substance, and a principal responds within 24 hours.
